To Whom It May Concern

Orkun Bulut Duman has played a key role in PC Desktop and IT Operations team during his apprenticeship period between August 1 and August 31, 2011. He has worked on setup, configuration and maintenance of not only PC Desktop applications but also upgrading of operating systems from Windows XP to Windows 7.

He has followed in full alignment the required technical procedures to accomplish his given tasks. It was very important to get some valuable feedback from Orkun which really helped us to improve and automate some parts of our configuration process. He has optimized the Computers in accordance with the costumers needs.

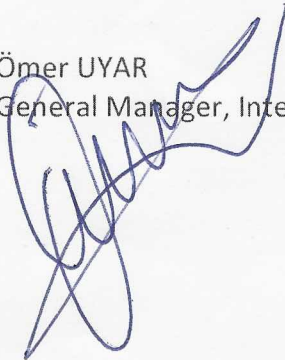

Orkun Bulut Duman is a reliable person with deep and broad analytical abilities and full commitment to his responsibilities. He is always looking for opportunities to add value to the responsibilities he is given. He performs his responsibilities in a self motivated and optimist manner which really helps not only his but also team's performance.

On the other hand, he has a very well process oriented approach while accomplishing his tasks. This approach helps him to understand not only the given task he has to accomplish but also the overall process behind it.

His communication skills with all levels of people differentiates him within the team. He is a real team player.

Considering his capabilities and the value he provided to my team, I have no hesitation recommending Orkun Bulut Duman for any role in my team.
